

World Digital Library (WDL)

S. Zarvandi
H. A. Rafiepour*¹

Abstract

Nowadays scientific and cultural references are needed not only among the students and researchers but also for all rank of societies. To increase the knowledge of people, it is necessary to access freely to required references in every time and places. This general requirement caused the establishment of world digital library (WDL) with multilingual translation in a cyberspace; WDL is going to create an internet-based, easily-accessible collection of the world's cultural, historical and geological riches which include promoting knowledge of societies and cultural diversity on the web. In this article we introduce this library and some of its treasures.

Keywords: World Digital Library, Internet Cyberspace, No Limitation of Time and Place.
